

6/3/70

Dear Paul,

In your 5/29 you ask if I know anything of one Gonzales, of whose first name you seem uncertain and whose matronymic you do not have. I have no card on any of those you mention, which doesn't mean I may not have something on him from prior to the beginning of my carding. Let me also give you those Gonzales names I do have carded:

Andrew Jorge; Dr. Alfredo; Eduardo; Migoyo Vicente P.; Ruben (Nancy).

I have nothing filed under last names similar to those possibilities you give me for the first.

There seems a familiarity about this, as there often does when there is none. However, when you can tell me the rest, perhaps it will then trigger something.

If by the next time you write you haven't had time to tell me what you say you will, just give me the city of cities and perhaps it may stir some recall. While it probably is not relevant, I came across a number of Gonzaleses looking for traces of the one Garrison seemed to be after, even one found on a boat drifting in the Gulf. Mrs. Cerniglia has a large file of these names, if that could provide a clue. And remember, I may have a way of checking official knowledge in Dallas.

Thanks for the return of the Stef menting memos files, which is how I'll be filing the originals if you ever need them again, and for the copies.

On the copies of COUP, the only error is that the one-page-per-page copy if for me, to be paid for by Bud, to replace the one I gave him. He agreed to pay for it, when I gave it to him. As of now, the only complete copy I have besides the master is the one from which Lil is indexing.

Bagert-CIA letter: no restrictions.

I'll be going over list of 89 pages, etc., when there is time. and here or later I'll return the Bud copy of your memo in Item 52 with questions.

Your trip seems to have been very productive. Glad Kathy also enjoyed it. But there never is enough time, for one can never recall everything on such short notice. Hope it can happen again soon, esp. before you do any writing on your own "Agent Oswald", for there is much I have you should go over first.

My reconstruction of Skolnick is pretty complete now, including some receipts from him. Let me ask if you gave copies of the Valle reports to anyone besides me? They were duplicates for me and I seem to have given these duplicates to someone. My present suspicion is that I gave them to Bud.
